

# VERMILION FACT SHEET

## WHAT'S FOR ME?

What's your objective ?  
What's your business goal?

Don't think so. Most agencies are busy telling you how to spend your money as opposed to why.

No doubts there are many intriguing tactics out there these days but are they right for you?

Unless you establish your objectives & goals and just as important, how you are going to measure these results, you could just be funding the folly.

At Vermilion we like to keep it simple. Vermilion unleashes your brand with strategically driven marketing.

We accelerate your success by turning insights into impact: we move people – and the needle on your brand.

Yeah its pretty tangled marketing web out there.

And we are just the guys to untangle it.

All your queries can be resolved by calling Vishhal Sasan at +91 99931 66655 or visiting our website

Or just keep funding the folly.
